- Manage turnkey project cost by maintaining approved quotation, bill amount, payment done and balance amount to be paid
- Manage and approve allowances claims
- Maintain salary project specific and in general
- Manage overall office profit & loss by maintaining revenue and expenses

LINK & CONNECT

- Link unique code of Client and ACVC with your system
- Collaborate with client for faster approval process of drawings, quotations, materials, references,etc.
- Collaborate with Contractor to receive quotation for faster comparison and keep a check on work status on site
- Client and ACVC can collaborate with multiple design firms with single login

SELECT, SHORTLIST & FINALISE

- Upload and Customise reference & material library
- Managing reference & material categories for your organisation
- Client can shortlist and finalise references & materials
- Choose according to specific choices as required

All on One Platform...

DELEGATE , PRIORITISE & BALANCE

- Assign project specific tasks to team members individually
- Timeline view of prioritised, allocated and tracked tasks
- Task specific timesheets is maintained either manually or timer
- Send alerts, notifications, and reminders to keep teams on track.
- Manage Project Timeline with Gantt Chart

UPLOAD, ORGANISE & REVIEW

- Faster review of all your project data i.e. Drawings , Quotations, AOM/ MOM , References etc.
- Collaborate with clients, agencies, contractors etc for quick decisions.
- Upload data in a pre defined form for structured organisation
- All stored in a secured AWS web cloud server

DRAG, DROP & MANAGE

- Separate cloud storage for all projects
- Maintain process drawing, GFC drawings, references, 3d, quotations, site photos in individual cloud storage
- Manage personal drive

STORE, SHARE & NAVIGATE

- Store Employee, Client, ACVC & Project - Basic, Postal, documents and bank details
- Common directory of the organisation
- Export and Share details via WhatsApp or email
- Easily navigate with predefined information of Google maps

Software Feature Highlights...

DASHBOARD

- Main Dashboard Gives Overview Of All The Projects – Task, Approval Request & Revision Request With Many Other Features
- Project Dashboard Gives Overview Of All The Project Specific Data – Process Drawing, References, 3D, AOM/MOM, Quotation, Materials, Released Drawing, Site Photos, ACVC Directory, Client Chat, Task, etc.

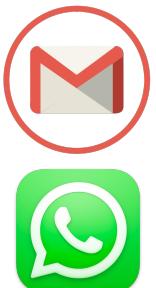

TIME

- Log & Review (Google Maps) – Check In/Check Out Time On Site Visit
- Maintain Work Hours With Manual & Auto-Timer Feature
- Review Real Time Task Of All Projects

FILE SHARE

- Integrate Gmail Account To Share Files With Editable Pre-Defined Format
- Send & Receive Mails On Archezy Dashboard
- Share Files Through Whatsapp With Individual Mobile Number

APPROVAL FLOW

- Three Approval Stages – Office, Client & Final
- Client Can Approve File From Mobile Application
- Select Approval Member For Better Accountability

CATEGORIZATION

- Select Drawing Stage & Title For better Review
- Add Multiple Revision/Versions Of Drawings
- Auto-Generated Drawing Code
- Link Files With Task For Faster Review
- Manage Multiple Categorise As Per Individual Office Requirements

COST ANALYSIS

- Overall and Project – P&L Account
- Divide Revenue & Expense With Project & General Specific
- Individual Turnkey Project Cost
- Quotation Comparison
- Employee Claim Allowance

QUALITY CHECK

- Contractor Can Update Work Status
- Design Firm Confirms The Quality Check Of The Work Status Updated By The Contractor
- Review Query With Designated Data Filter

CHAT

- Task Specific Chat
- Project Specific Client Communication Chat
- Drawing Specific Contractor Communication Chat
- AOM/MOM Specific Employee Communication Chat

NAVIGATE

- Link Project GPS Location
- Link ACVC Communication Address
- Review Check In/Check Out Of Site Visit
